Chapter IV

Exercise 01: testShell00

|	Exercise 01
	What are attributes anyway ?
Turn-in directory : *ex01/*	
Files to turn in : `testShell00.tar`	
Allowed functions : `None`	

- Create a file called `testShell00` in your submission directory.

- Figure out a way for the output to look like this (except for the "total 1" line):

```
%> ls -l
total 1
-r--r-xr-x 1 XX XX 40 Jun 1 23:42 testShell00
%>
```

- Once you've achieved the previous steps, execute the following command to create the file to be submitted: `tar -cf testShell00.tar testShell00`.

> ⚠ Don't worry about what you've got instead of "XX".

> ⚠ A year will be accepted instead of the time, on the timestamp of the file.

Did you check with your right neighbor ?
